Be Part of Something Much Bigger!

Before you begin, let's find out where you're starting...

All around the country, leaders in churches just like yours are passionate about reaching and discipling men. We all believe that helping men grow in their relationship with Christ is critical to the future of the church, families and communities.

So how do we know if what we are doing is working? We would like you to benchmark your progress using a simple, research-tested survey. By answering this survey now, and periodically throughout the future, you will be able to measure the impact of your efforts to reach and disciple men.

In addition, we would like you to submit your benchmark results to us so that (1) we can help you monitor your progress, and (2) we can aggregate the data to show the overall impact of men's discipleship leaders in churches around the country. Your participation helps us continue offering great resources by helping us show the impact of our work.

Here's what you do: Take the form below to a pastor (preferably your senior pastor) in your church. Ask them to answer the three simple questions. Then send us a copy via email, fax or mail. We'll remind you periodically to take the survey again, and help keep track of the results. It's that simple!

We're honored to be partnered with you in the cause of Christ. This benchmarking data will help us invest our resources wisely in the battle for men's souls.

Course Introduction/Overview

This Course is the second of two training opportunities for the men's leadership team in a local church. *Course One: Foundations* provides the groundwork for implementing an intentional, grace-based, heart-centered, process-oriented men's discipleship ministry.

It is *highly* recommended that the team go through *Course One* before participating in this training. If there are team members who have not had the opportunity to take the first course, having them watch the videos and look through the work product your team developed would be very helpful.

Each team member has received a copy of *Pastoring Men* with his participant workbook. Have each man read Chapter 9 as an overview and reminder of the No Man Left Behind Model.

A timeline is provided for each session based on a 90-minute meeting. However, the work for some sessions (especially the first three) could easily stretch your meetings to two hours. If it is possible to schedule two-hour meetings, you will be able to decrease the work assigned between sessions. Add the additional 30 minutes to the review time for reports on work assignments, and to the planning exercise time.

Of course, if you need any help, advice or support, call our offices at 800-929-2536 and we'll be glad to assist you.

Session Five: Capture Momentum with the Right Next Step

What You'll Need For This Session

Participant's Guides. You will also need the Activity Planning Sheet that you began working on in the last session. You will use the second page of it in this session. A white board or flip chart pad is suggested.

Welcome, Review & Discussion Starter – 5 minutes

Reports: meetings with ministry leaders and potential leaders; final adjustments to Gap Analysis; and Activity Planning Sheet changes from last session.

This session continues to look at the process for involving men in your ongoing discipleship processes. We'll look at capturing men's interest once they come to some type of event or activity.

Watch Video – 25 minutes

Discussion Questions – 15 minutes

These are found at the end of Session Five in the Participant's Guide. Use the discussion questions to be as concrete and specific as possible. Be sensitive to saying an event "failed" to create a lasting impact if any member of your team was responsible for that event. Use this as a time of learning and encouragement to do better, rather than assigning blame.

Planning Exercise – 30 minutes

Take the Activity Planning Sheet from the previous session and complete the second page of it. As you brainstorm, be sure that most, if not all, of the pre-event and post-event connections you write down should be things that already exist in your church. If you worked on multiple sheets, pick one to work on together, and if you have time, have team members work independently or in teams on any additional activities you are planning.

It may be helpful to brainstorm on a whiteboard or flip chart using the questions in the workbook first, and then capture the best thoughts on the Activity Planning Sheet.

As you consider your post-activity next steps, you may recognize that you have too big a gap between the current activity and where you want men to end up. In this case, you may need to insert an in-between step. In our example, we suggest adding a service project, such as Habitat for Humanity, as a bridge to the Mexico mission trip. This church would recruit guys to help out for one morning or afternoon at the work project, and then use that to introduce the mission trip, where they will be doing roughly the same thing. This gives men a believable pathway through the various discipleship opportunities available in the church.

Prayer – 10 minutes

Pray over your upcoming events, that God would bring the right men to those activities and that they would be drawn closer to Him. Be sure to pray for personal requests.

Assignment for Next Session

Continue any meetings with ministry leaders or potential leaders. Complete the second page of the Activity Planning Sheet if you started additional ones but did not complete them.

Review what materials you will need for the next session.
